See Continuation Sheet.

Continuation from Box No. 10 on page 1:

With respect to Box No. 2 on page 1, the examiner notes that the Brief does not contain a statement of the status of all claims. For instance, instead of Applicant's first paragraph under the heading "Status of the Claims", Appellant should state something similar to the following: "Claims 1-5 stand canceled. Claims 6-10 stand rejected and the rejection of these claims is being appealed." Also, the second paragraph under the heading "Status of the Claims" should be deleted because the Request for Reconsideration should only be discussed under the heading "Status of the Amendments". In addition, Appellant should not reference claims that have not been entered.

With respect to Box No. 4 on page 1, the examiner notes that the Brief does not contain a concise explanation of the subject matter defined in each independent claim involved in the appeal. In other words, independent claim 6 should basically be restated and within parentheses, Applicants should list the reference numerals and/or page numbers and lines of the specification which support the subject matter of claim 6 similar to the following:

Claim 6 discloses a hammock support structure comprising:

a plurality of round or tubular sections (2-4, 7, 8) which can be assembled into an arc shaped stand (Fig. 2) for supporting a hammock, and foot supports (7, 8) attached to the bottom surface of said stand and extending perpendicularly outward therefrom; the arc shaped stand (Fig. 2) being formed of a bottom mid section (2), and end sections (3, 6) attached to opposite ends of the said bottom mid section (2) and extending upwardly and outwardly therefrom, at least one of said end sections (6), being divided, at a point commencing at or near one (8) of said foot supports (7, 8), to form two or more prong sections (4A, 4B) extending upwardly and outwardly from said foot support means (24A, 24B) for supporting said hammock attached toward the outer ends of said prong sections (4A, 4B), detachable means to secure said arc shaped stand to said foot supports (7, 8).

With respect to Box No. 5 on page 1, the examiner notes that the Brief does not contain a concise statement of each ground of rejection presented for review. In other words, the Brief should basically state as follows: "The ground of rejection to be reviewed in this appeal is the rejection of claims 6-10 under 35 U.S.C. 103(a) as being unpatentable over Clark (U.S. Patent Application 2004/0244112 or U.S. Patent Application No. 2005/0015876) in view of any one of Hoffman '211 (U.S. Patent No. 4,673,211), Hoffman '130 (U.S. Patent No. 5,362,130), or Mourot (U.S. Patent No. 2,888,689)." In other words, since the specification of Clark (U.S. Patent Application 2004/0244112 and Clark (U.S. Patent Application No. 2005/0015876) is the same the two may be treated as one reference. However, Hoffman '211 (U.S. Patent No. 4,673,211) and Hoffman '130 (U.S. Patent No. 5,362,130) are two different patents having similar, but differing disclosure and differing structure (see, in particular, the structure represented by reference numeral 10) and therefore, should be kept separate.

With respect to Box No. 6 on page 1, the examiner notes that arguments against Clark (U.S. Patent Application 2004/0244112 or U.S. Patent Application No. 2005/0015876) in view of any one of Hoffman '211 (U.S. Patent No. 4,673,211), Hoffman '130 (U.S. Patent No. 5,362,130), or Mourot (U.S. Patent No. 2,888,689) should differentiate between Hoffman '211 (U.S. Patent No. 4,673,211) and Hoffman '130 (U.S. Patent No. 5,362,130) because as stated above with respect to Box No. 5, Hoffman '211 (U.S. Patent No. 4,673,211) and Hoffman '130 (U.S. Patent No. 5,362,130) are two different patents having similar, but differing disclosure and differing structure (see, in particular, the structure represented by reference numeral 10) and therefore, should be discussed separately.

With respect to Box No. 8 on page 1, the examiner notes that the "Evidence Appendix" should begin on a separate sheet of paper and then state "None" below the heading on that separate sheet.

With respect to Box No. 9 on page 1, the examiner notes that the "Related Appeals and Interferences Appendix" should begin on a separate sheet of paper and then state "None" below the heading on that separate sheet.
